

Top Ten Trough Storage Ideas

Chuck Andraka

10. Storage is expensive. Throw it out unless you are SURE you want it later.
9. Extra time spent labeling the boxes will save time later
8. Package the metal parts separate from the glass
7. Move the ladders out of the way before rotating the trough
6. Remove the fluids first. That oil can really gunk up over time.

Top Ten Trough Storage Ideas

5. Mail Boxes Etc. can help package ANYTHING
4. Never mark the box “fragile”, this is just a challenge to the movers
3. Use bubble wrap between the glass layers
2. Remove the HCE’s, the troughs will nest better
